OUR → PRODUCTS

We at wood galleria are equipped with blend of qualified engineers, technical experts with over two decades of practical experience which results a flawless solution of every complex or tough production in a premier quality products.

OUR PRODUCTS →

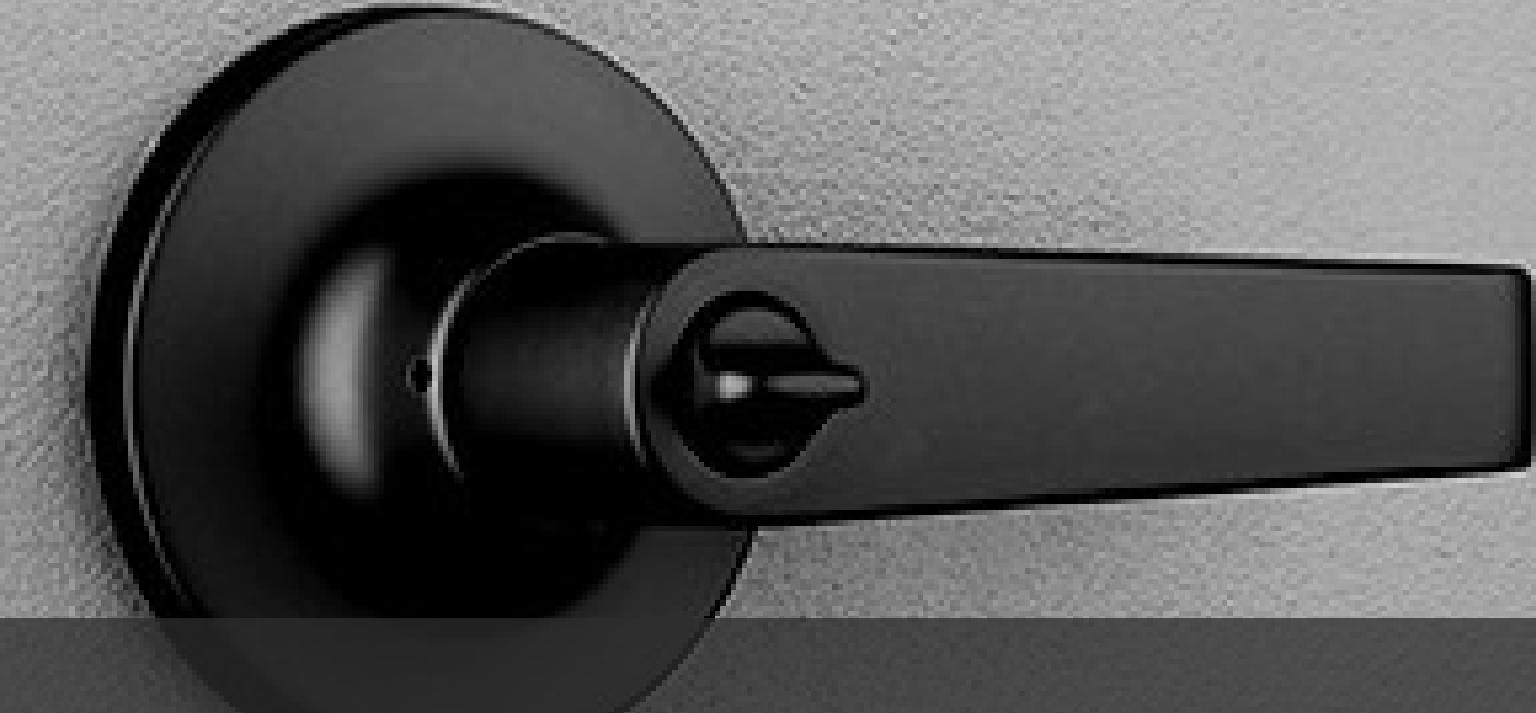

SOLID WOODEN DOORS

Solid core doors are made of a mixture of wood and synthetic wood composites. They have a heavy, solid interior and a wood veneer exterior. They provide the durability, sound insulation, and look of a solid wood door. Provide better soundproofing. They are more durable and heavier duty, for security reasons.

OUR PRODUCTS →

SEMI-SOLID WOODEN DOOR

Semi-solid doors are similar in construction to solid doors, but with a slight alteration. Rather than being solid to their core, semi-solid doors feature a composite that has been cushioned with other materials, preferably MDF. Semi-solid doors are going to be lighter, easier to install, and less expensive than solid door.

OUR PRODUCTS

MODERN WOODEN DOOR

Wood Galleria is taking pride to launch a new & exclusive product after investing hundreds of hours in research known as Modern Wooden Doors. We rate the product over semi solid doors when it comes to structure and full face design is an edge over solid as well. It comes in three variants **Premium**, **Modest** and a budgeted variant as well known as **Standard**.

OUR PRODUCTS → **COMMERCIAL DOORS**

Commercial doors, as the name implies, are doors that are specifically manufactured for commercial purposes. They are usually used in schools, office buildings, stores, hospitals, manufacturing industries, and other commercial buildings.

OUR PROJECTS

Residential projects:

We have successfully delivered over 200+ numerous projects for private homes, providing custom-made wooden doors for entrance, internal, sliding, and patio doors that enhance the aesthetic appeal and security of the homes.

Commercial projects:

We have also worked on various commercial projects, providing wooden doors for office buildings, hotels, and other commercial properties. Our doors are designed to withstand heavy usage and provide a professional and elegant look for the buildings.

Large-scale projects:

We have completed large-scale projects, such as providing wooden doors for apartment buildings, schools, and other multi-unit structures. We have the capability to handle large-scale projects and can deliver on time and within budget.

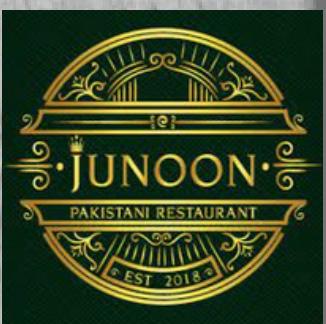

A black and white photograph of a construction worker wearing a hard hat and safety glasses, looking down at a workbench or plans. The background is slightly blurred.

Wood Galleria's execution is driven under several checks and expert's supervision at production and installation stages and needs internal quality approval from WG's engineers before presenting for approval at client's end. Our experienced staff can even share solution of any complex hurdle which make our projects flawless and create ease for our building partners.
